ALLOCATIONS FOR SEISMIC RETROFIT PROJECT

SEISMIC RETROFIT BOND ACT OF 1996 (PROPOSITION 192)

INFORMATION

BACKGROUND

On March 30, 1994, the California Transportation Commission delegated to the Department authority to allocate funds by Resolution G-11, as revised by Resolution G-94, for seismic retrofit project. This authority allows the Department to begin work without waiting for the next CTC meeting to receive an allocation.

This project is part of the legislatively mandated Bridge Seismic Retrofit Program (SB131), approved by the Governors Office on March 15, 1994.

SUMMARY AND CONCLUSIONS

Pursuant to the authority granted by Resolution G-11, Proposition 192 Bond Funds of \$613,209 was allocated for one (1) seismic retrofit Phase II project.

Project #1, In San Diego at various locations. Seismic retrofit for seven bridges. During construction, the contractor encountered differing site conditions. These differing site conditions resulted in an arbitration settlement. This supplemental G-11 funds request was required to satisfy the terms of the arbitration settlement.

HISTORY

This project seismically retrofitted seven structures in San Diego County. During construction, the contractor encountered water while excavating for foundation retrofit. The contractor claimed that this condition was not disclosed in the contract, and therefore claimed differing sight conditions. This supplemental G-11 for \$613,209 was approved in January 2002 to satisfy the terms of an arbitration settlement.
